Speciality Industries L.L.C (Speciality, established in 2006 is part of a Dubai based mid-sized business group viz. BUJSAIM GROUP of COMPANIES having diverse business interests. Speciality as the name says, is primarily known in the market to provide specialized value added products and services to a wide range of industry segments.

www.specialityllc.com
Our primary objective is to ensure that the customers receive their products and services to their needs on time. Quite often our Quality Assurance personnel reach out to the customers to understand their needs and thus being able to serve better.

Our infrastructure remains the backbone of our entire business. We have a total land area of 300,000 sq.ft, of which 60,000 sq ft is the built up area. The built up area includes the office, warehouse and production facility. We have a wide range of state of the art machinery and equipment which includes roller mills, ball mills, hammer mills, sieving units, batching plants, jaw crusher, roller crusher, classifiers, packing units and silos. We therefore are able to meet the customer requirements. To meet our daily delivery needs, we have a fleet of flat bed trailers and pickups. In addition we also do have an in house lab facility.
The whole ranges of products and services that we offer cater to the following market segments:

- Construction Chemicals
- Block Manufacturing
- Paper
- Paints
- Ceramics
- Ink
- GRP / GRC
- Oil & Gas
- Detergent
- Foundry
- Animal Feeds
- Sugar
- Water Filtration / Treatment
- Plastics
- Pesticides
- Sports field
- Irrigation & Landscaping
- Cosmetics
To adhere to the stringent quality norms of our prime customers, Speciality also has adopted stringent quality standards. Accordingly, quality check happens at various stages viz. receipt of raw material, during production (in process quality check), right after production (while taking finished material into stock) and at the time of dispatch.

Speciality also ensure to match the specification according to international standards viz. ASTM, BS etc. which is a requirement in certain industries.
