BEYOND BARRIERS

Preamble

Speciality Industries L.L.C (**Speciality**), established in 2006, is part of a Dubai based mid-sized business group viz. **BUJSAIM GROUP of COMPANIES** having diverse business interests. **Speciality**, as the name says, is primarily known in the market to provide specialized value added products and services to a wide range of industry segments.

The activities that **Speciality** is engaged in are:

- Mineral processing and pulverizing
- Manufacturing of Construction Chemicals (dry and liquid)
- Production and supply of natural aggregates
- Production and supply of UV Stable Pigmented Aggregates
- Material processing, handling and storage solution
- Production and supply of suitable material for Sports Turf

The main focus is on Construction Chemicals, Paints, Metal Castings, GRC/GRP, Ceramics, Water Filtration, Oil & Gas, Landscaping, Sports and Feeds. Speciality is fortunate to have all big names in these industry segments as customers.

Speciality is well equipped with latest State of the Art machinery and equipment thus being able to meet specialized needs of customers.

Speciality is located in Jebel Ali Industrial Area 2, Dubai, United Arab Emirates which has proximity to all major

Our Objective

Our primary objective is to ensure that customers receive their products and services as per their need on time. Quite often our Quality Assurance personnel reach out to customers to understand their needs, enabling us to serve them better.

Market Segments

The whole range of products and services that we offer cater to the following market segments:

Construction Chemicals | Paints | Water Filtration | Oil & Gas |
Landscaping | Sports Field | GRP / GRC | Foundry | Ceramics |
Paper | Animal Feeds | Glass | Block Manufacturing | Ink |
Detergent | Sugar | Plastics | Pesticides | Cosmetics

Infrastructure

Our infrastructure remains the backbone of our entire business. We have a total land area of 300,000 sq.ft, of which 60,000 sq. ft is the built up area. The built up area includes the office, warehouse and production facility. We have a wide range of state of the art machinery and equipment which includes roller mills, ball mills, hammer mills, sieving units, batching plants, jaw crusher, roller crusher, classifier, packing units and silos. Therefore we are able to meet the customer requirements. To meet our daily delivery needs, we have a fleet of flat bed trailers and pickups. In addition, we also have an in house lab facility.

Quality

To adhere to the stringent quality norms of our prime customers, Speciality has adopted quality standards. Accordingly, quality check happens at various stages viz. receipt of raw material, during production (in possess quality check), right after production (while taking finished material into stock) and at the time of dispatch.

Speciality also ensures to match the specification according to international standards viz. ASTM, BS etc. which is a requirement in certain industries.

Speciality possesses the following quality certifications:

URS is a member of Registrar of Standards (Holdings) Ltd.

URS is a member of Registrar of Standards (Holdings) Ltd.

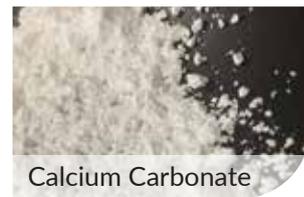

URS is a member of Registrar of Standards (Holdings) Ltd.
